The Science of Mindfulness is a 24-lecture series centered on research findings surrounding mindfulness and meditation. This screening is going to present modules 8 through 10 in the series:

- Tailoring Practices to Fit Changing Needs
- Modifying Our Brain Function and Structure
- Solitude – An Antidote to Loneliness

Each of these lectures will be followed by a brief discussion period. Dr. Ronald D. Siegel is an Assistant Clinical Professor of Psychotherapy at the Harvard Medical School and an Adjunct Clinical Professor of Psychiatry at the University of Massachusetts Medical School. He is the author or editor of a number of important publications, including: *The Mindfulness Solution: Everyday Practices for Everyday Problems*. These films are being screened courtesy of *The Teaching Company*, <http://www.thegreatcourses.com>.

Admission is free.
